

ShelterConnect

App Concept and User Interface Design

Presented by: Talia Frendl

CST328 Digital Art & Design - Fall '24

ShelterConnect is an app concept designed to connect people with adoptable pets from local animal shelters. Whether you're looking for a specific type of pet (cat, dog, other), searching by breed, or wanting to browse featured pets, Paw Portal makes it easy to find a pet. Users can "heart" their favorite pets to save for later.

With a simple and intuitive interface designed for all age groups, Paw Portal centralizes animals for adoption from a variety of shelters.
